TELECOM CUSTOMER CARE · CAPACITI WEEK 3

ChurnSignal

Most angry customers stay.
Find the ones who won't.

Tshepiso Freddy Thosago

tshepisofrominnostation.github.io/churnsignal

THE PROBLEM

Unhappy is not the same as leaving.

So the inbox is answered in arrival order.
The people about to leave are buried in the middle.

WHAT IT DOES

Read. Rank. Reply.

READ

every message

RANK

risk, not volume

REPLY

in the right order

Four queues: Respond Now · Today · This Week · Monitor

MEASURED, ON 819 UNSEEN MESSAGES

90%

spots a leaver

keyword rule: 50%

74%

of leavers reached

answering top 20% only

96%

sarcasm read right

word lists: 6%

Answering top to bottom reaches only 18%.

HOW, IN PLAIN WORDS

01 Clean the text

02 Weigh the words

03 Four classifiers

04 One priority score

Churn 62% · urgency 28% · negativity 10%

WHAT THIS IS NOT

Honest about the limits.

- Synthetic data, not real customers
- A triage aid, not a verdict
- English first, other languages next

LIVE NOW

Open it on your phone.

Paste a message. See who to answer first.
